Vale of Glamorgan Replacement Local Development Plan 2021-2036

DEPOSIT PLAN CONSULTATION

Public Consultation Representation Form

The Council is seeking your views on the Replacement Local Development Plan (RLDP) **Deposit Plan**. The Deposit Plan is the next formal stage in the development plan preparation process and expands on the Preferred Strategy which the Council consulted on in December 2023 – February 2024.

The Deposit Plan is the full draft version of the RLDP, detailing the **overall strategy, development policies, land designations** (e.g. conservation) and **specific land allocations** for development (including new housing and employment sites) over the 15-year period 2021-2036.

The public consultation will run for 6 weeks between **Wednesday 28th January 2026 and Wednesday 11th March 2026**. Representations received after this time will not be considered.

Full details of the consultation are available on the Council's website at: www.valeofglamorgan.gov.uk/ldp or by scanning the QR code above.

The Council encourages representations on the Deposit Plan to be made via our **online consultation portal** available at <https://valeofglamorgan.oc2.uk/> however representations submitted using this form will also be accepted.

Representations are welcomed in both Welsh and English and this representation form is available in other formats on request e.g. Welsh, large print.

2: Your Views

QUESTION 1:

What are your thoughts on the Deposit RLDP (e.g. policies, site allocations)?

Please state which site reference, policy or paragraph number your comments refer to. If you are commenting on more than one site, policy or paragraph, please use a separate sheet for each one.

Comments:

I am writing to formally object to the proposed development of 250 dwellings on Cardiff Road, Dinas Powys. My objection is based on the following concerns:

Flood Risk and Drainage

There is already increasing concern locally regarding surface water and flooding in the area. Residents have seen conditions worsen in recent years, which suggests that drainage systems and the local water table are already under pressure.

The proposed development would replace permeable agricultural land with roads, driveways and housing. This would inevitably increase surface water runoff. Without clear and proven mitigation, this development risks making existing flooding issues worse for current residents.

Traffic Congestion and Highway Safety

Cardiff Road is already heavily congested, particularly during peak times. Traffic frequently slows to a standstill as vehicles pass through Dinas Powys. The current volume of traffic is already excessive.

An additional 250 homes would result in a significant increase in vehicle movements. This would worsen congestion, increase pollution and raise safety concerns for pedestrians, especially children. The cumulative impact on road safety and quality of life should be carefully considered.

Impact on Wildlife and Biodiversity

The proposed site supports established wildlife habitats. There are bats in the fields near Seel Park, along with a range of bird species, including birds of prey.

The loss of farmland and green space would reduce local biodiversity and permanently alter the character of the area. This would be contrary to environmental and sustainability priorities.

Pressure on Local Services

Local services are already stretched, including schools, GP surgeries and wider NHS services such as ambulances and maternity facilities.

A development of this size would place further strain on infrastructure that is already struggling to meet current demand. It is unclear how these services would be expanded to accommodate the increase in population.

For these reasons, I strongly urge the planning authority to reject this proposal.

QUESTION 2: WELSH LANGUAGE

We would like to know your views on the effects that proposals in the Deposit Plan would have on the Welsh language, specifically on opportunities for people to use Welsh and on treating the Welsh language no less favourably than English. Do you think that there will be any impacts, either positive or negative? Please explain
