DEPOSIT PLAN CONSULTATION

Public Consultation Representation Form

The Council is seeking your views on the Replacement Local Development Plan (RLDP) **Deposit Plan**. The Deposit Plan is the next formal stage in the development plan preparation process and expands on the Preferred Strategy which the Council consulted on in December 2023 – February 2024.

The Deposit Plan is the full draft version of the RLDP, detailing the **overall strategy, development policies, land designations** (e.g. conservation) and **specific land allocations** for development (including new housing and employment sites) over the 15-year period 2021-2036.

The public consultation will run for 6 weeks between **Wednesday 28th January 2026 and Wednesday 11th March 2026**. Representations received after this time will not be considered.

Full details of the consultation are available on the Council's website at: www.valeofglamorgan.gov.uk/ldp or by scanning the QR code above.

The Council encourages representations on the Deposit Plan to be made via our **online consultation portal** available at <https://valeofglamorgan.oc2.uk/> however representations submitted using this form will also be accepted.

Representations are welcomed in both Welsh and English and this representation form is available in other formats on request e.g. Welsh, large print.

Comments:

The allocation of a further 250 homes at the planned site is directly off Cardiff Road which brings increased congestion in an area which is regularly at gridlock status.

Our road infrastructure is at capacity it cannot cope now let alone with the increase in the volume of cars that extra housing will bring.

The increase in traffic is particularly concerning given the proximity to Dinas Powys infant school. There are two major areas of risk, pupil safety and exposure to vehicle emissions. It raises the likelihood of accidents during drop off and pick up times. Increasing congestion makes visibility poorer for drivers and pedestrians. It heightens the risk for children walking or cycling to school. It creates increased dangers for families crossing the road at existing crossing points. Schools should be a safe zone where children can travel independently and confidently. Increasing traffic undermines that principle.

Car fumes contain nitrogen oxides and pollutants known to negatively affect health. Increasing traffic leads to higher concentrations of these pollutants. A clear risk to children and families, compromising future health to everyone.

The Infrastructure support is inadequate, the Doctor Surgery and local schools are already at capacity.

My last concern and probably the most worrying is additional homes in a flood prone area. Dinas Powys has flooded many times, more so in recent years as our environment changes.

IMPORTANT INFORMATION

Thank you for your comments. Following the consultation, the Council will consider the responses and prepare a report of consultation, which will form part of the evidence for the Replacement Local Development Plan.
