I want to register my concerns regarding the proposed housing development at Weycock Cross.

The roads around the area are already very congested at peak times, to the extent that I can smell and taste diesel exhaust fumes when I walk in the area.

The local schools are already overwhelmed and Barry kids are in some cases having to go to Cowbridge for secondary education. Are GPs are also under pressure, hundreds of more patients is going to make this worse.

The railway station is not within 20 minutes walking distance as stated in the plan.

No one who lives or commutes in and around Weycock Cross would ever agree that the roads and junctions can cope with any more traffic.
