#### Comments:

1.This development would reduce the openness of the countryside and harm the Green Wedge that currently separates Barry, Rhose and St Athan. This loss of open land would damage landscape character and local amenity, and increase pressure for the settlements to merge. Consequently, the proposal is inconsistent with the the Green Wedge background paper supporting the Vale of Glamorgan Local Development Plan 2011 - 2026.

2. This development would increase traffic on the now very congested A4226, reduce the free flow of vehicles to and from Cardiff Airport and also with the Five Mile lane leading to A48 (to Cardiff) and M4. I write this the day after another accident on the Five Mile Lane where the closure of the road caused gridlock for hours. The development of up to 360 new homes would add significant traffic to roads that are already congested. The proposal does not include adequate mitigation and would increase delays and queuing at Colcot and Wenvoe roundabouts. With four senior schools nearby generating heavy peak-time traffic, the additional vehicles from this scheme would place unsustainable pressure on local routes and worsen existing congestion.

2. The proposed entrance to the site is potentially dangerous and likely to cause traffic congestion. Its siting and design fail to provide safe visibility for drivers and pedestrians and could lead to queuing and conflict with through traffic, especially during busy periods.

**QUESTION 2: WELSH LANGUAGE**

We would like to know your views on the effects that proposals in the Deposit Plan would have on the Welsh language, specifically on opportunities for people to use Welsh and on treating the Welsh language no less favourably than English. Do you think that there will be any impacts, either positive or negative? Please explain
