Comments:

I oppose the proposed development (H&I KS2 Eastbrook) on greenfield land due to the irreversible environmental damage, the absence of essential local infrastructure which will include added pressure on already overstretched local services and roads and transport links.

This development conflicts with sustainable development principles, the environmental and ecological impact on the local area will be irreversible and forever damaging to wildlife and biodiversity. The risk of flooding for Dulas ponds and the local area will be increased as the chosen fields absorb the local rainfall. This is an absolute destruction of natural habitat.

The roads around the proposed development site are already struggling with congestion and being poorly managed by the Council, with poor road/madequate surfaces and pot holes. The increased traffic will present safety concerns. The economic ask from taxpayers locally is again unacceptable for a development that is not wanted by the local community.

The schools in the surrounding area & local GP practices are already struggling to and overstretched providing poorer access to education and healthcare.

Choosing brown field sites is preferred by the local community and myself as more sustainable development. Once again I completely oppose this development as a local resident, it is a destruction of our environment.
