Vale of Glamorgan Replacement Local Development Plan 2021-2036

DEPOSIT PLAN CONSULTATION

Public Consultation Representation Form

The Council is seeking your views on the Replacement Local Development Plan (RLDP) **Deposit Plan**. The Deposit Plan is the next formal stage in the development plan preparation process and expands on the Preferred Strategy which the Council consulted on in December 2023 – February 2024.

The Deposit Plan is the full draft version of the RLDP, detailing the **overall strategy, development policies, land designations** (e.g. conservation) and **specific land allocations** for development (including new housing and employment sites) over the 15-year period 2021-2036.

The public consultation will run for 6 weeks between **Wednesday 28th January 2026 and Wednesday 11th March 2026**. Representations received after this time will not be considered.

Full details of the consultation are available on the Council's website at: www.valeofglamorgan.gov.uk/ldp or by scanning the QR code above.

The Council encourages representations on the Deposit Plan to be made via our **online consultation portal** available at <https://valeofglamorgan.oc2.uk/> however representations submitted using this form will also be accepted.

Representations are welcomed in both Welsh and English and this representation form is available in other formats on request e.g. Welsh, large print.

2: Your Views

QUESTION 1:

What are your thoughts on the Deposit RLDP (e.g. policies, site allocations)?

Please state which site reference, policy or paragraph number your comments refer to. If you are commenting on more than one site, policy or paragraph, please use a separate sheet for each one.

SITE REFERENCE/POLICY/PARAGRAPH NUMBER:

Agree/Support	☐	Disagree/Object	☒	Comment	☐	No Comment	☐

Comments:

I strongly disagree with the development planning reference HG1 KS2. This is due to the sheer lack of thought of impact both on the community of Dinas Powys and the surrounding wider areas. The proposed site would lead onto a main road that is already congested to the point of being ridiculous for both residents of Dinas Powys and those from Barry/Penarth who need to use the route to commute. Cardiff Road is consistently gridlocked to the point where proposing more houses and so traffic and cars is ludicrous. Where is the upgrade of infrastructure to support these additional cars and vehicles? I have lived in Dinas my whole life and there has never been an upgrade aside from the bus lane which does nothing to cut congestion on the road. The roads are not maintained as they are as they are covered in potholes causing damage to cars and you are suggesting a plan that would lead to more wear and tear. Public transport can also not cope with the demand already placed on it. I commute to Cardiff and, even with the addition of some new trains, they cannot meet the requirements of the number of people at peak times - many journeys lead to passengers being unable to get on the train at all and having to wait for a later one. Parking is already an issue for many with people parking on both sides of the road and causing congestion and people have already taken to parking on the pavement, particularly at the bottom of St Davids Avenue on Cardiff Road which is causing obstructions for anyone with mobility issues or a pushchair.

The schools are already oversubscribed to the point where class numbers are unmanageable, I know this first hand from speaking to many teachers in the infants school in particular. They are under resourced and do not have the manpower to provide one on one care that many pupils now require. This is also the case with the Doctors Surgery which is pure luck if you can get an appointment through relentless ringing at a certain time - how can this then justify putting more families in each catchment area?

On flooding - as we have already observed with new developments in the village there has been an increase in run off which the brook and stream cannot cope with leading to significant flooding. The relatively new houses by Hebron Hall are already flooding in areas and we have seen numerous houses damaged by flood on Cardiff Road - how can any environmental assessment worth anything suggest that building on a natural area that soaks up water will not increase flooding and approve this is simply unbelievable.

QUESTION 2: WELSH LANGUAGE

We would like to know your views on the effects that proposals in the Deposit Plan would have on the Welsh language, specifically on opportunities for people to use Welsh and on treating the Welsh language no less favourably than English. Do you think that there will be any impacts, either positive or negative? Please explain
