Pwnc | Subject: Replacement Local Development Plan

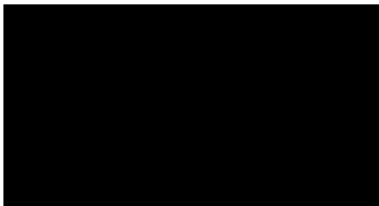

Dear Lis,

I am writing to object to the Vale of Glamorgan Council's Replacement Local Development Plan.

I strongly feel that all the key sites stipulated are unsuitable and inappropriate. The entire strategy behind the deposit plan is flawed and the process needs to begin again.

I also express deep concern that the public have been unable to easily access material owing to the ways it has been published. The average person has not been able to adequately consider all of the information within the consultation period. As such the public need more time to produce their consultation responses and at the very least, the consultation period must be extended.

With kind regards,
