Subject: Objection to the proposed redevelopment of Clive Road Field, St Athan.

To the Planning Committee.

As a resident of East Camp, I strongly oppose the proposed development of Clive Road Field.

This is now our only green space following the large housing estate built in recent years which took away access for walking. As a disabled person, Clive Road Field is accessible for short walks. There are also field mice nests and an array of bugs when the grass is allowed to grow here.

We have now had a few housing developments in this area without any investment in infrastructure, with more planned at the top of the village. Our transport links are poor, access to GP and other services are limited unless you drive, so please, leave us some space for our wellbeing and make use of the alternative brown sites which arose from the development of Bro Tathan.

Laura O'Keeffe
