Vale of Glamorgan Replacement Local Development Plan 2021-2036

DEPOSIT PLAN CONSULTATION

Public Consultation Representation Form

The Council is seeking your views on the Replacement Local Development Plan (RLDP) **Deposit Plan**. The Deposit Plan is the next formal stage in the development plan preparation process and expands on the Preferred Strategy which the Council consulted on in December 2023 – February 2024.

The Deposit Plan is the full draft version of the RLDP, detailing the **overall strategy, development policies, land designations** (e.g. conservation) and **specific land allocations** for development (including new housing and employment sites) over the 15-year period 2021-2036.

The public consultation will run for 6 weeks between **Wednesday 28th January 2026 and Wednesday 11th March 2026**. Representations received after this time will not be considered.

Full details of the consultation are available on the Council's website at: www.valeofglamorgan.gov.uk/ldp or by scanning the QR code above.

The Council encourages representations on the Deposit Plan to be made via our **online consultation portal** available at <https://valeofglamorgan.oc2.uk/> however representations submitted using this form will also be accepted.

Representations are welcomed in both Welsh and English and this representation form is available in other formats on request e.g. Welsh, large print.

2: Your Views

QUESTION 1:

What are your thoughts on the Deposit RLDP (e.g. policies, site allocations)?

Please state which site reference, policy or paragraph number your comments refer to. If you are commenting on more than one site, policy or paragraph, please use a separate sheet for each one.

Comments:

Planning reference: HG1 KS2

- No supporting infrastructure investment: There has been little to no investment in expanding local infrastructure to support further housing. Roads, drainage, utilities, and services are already stretched, yet development is being proposed without any clear plan to upgrade them.
- Existing gridlock on main routes: Traffic through Dinas Powys is already heavily congested during peak hours. Additional housing will inevitably introduce more vehicles onto roads that are already at capacity.
- Increased flood risk: The area already experiences regular flooding. Building over existing green land will reduce natural drainage and increase surface water runoff, making flooding more frequent and more severe.
- Pressure near a local hospital: Additional traffic generated by the development would pass close to a local hospital, risking delays for patients, staff, and emergency vehicles.
- Poor active travel connections: There are currently limited safe walking and cycling routes to the nearest train station. Without proper active travel infrastructure, new residents will be forced to rely primarily on cars.
- Loss of green space and wildlife habitat: The development would remove valuable green land that supports biodiversity and provides an important natural buffer for the community.
- Declining air quality: More housing and vehicle traffic combined with less open green space will inevitably increase pollution and reduce local air quality.
- Neglected road network: Many local roads are already in poor condition due to years of underinvestment. Increased traffic will only accelerate their deterioration.
- Schools and GP surgeries already full: Local education and healthcare services are already operating at capacity, and there is no clear provision to expand them alongside the proposed development.

QUESTION 2: WELSH LANGUAGE

We would like to know your views on the effects that proposals in the Deposit Plan would have on the Welsh language, specifically on opportunities for people to use Welsh and on treating the Welsh language no less favourably than English. Do you think that there will be any impacts, either positive or negative? Please explain
